About us:

OCI Seating joined the contract furniture market determined to offer our customers a quality product at an excellent value with shorter lead-times. By maintaining this service-oriented perspective, customers have been drawn to our ability to design and develop innovative products, while offering personal support and exceptional experiences. Our exceptional value, combined with design motivated products, on-time delivery, and our dedication to customer experiences have made us stand out in the furniture industry.

Founded in 1974, owned and operated as a family business to date, we have enjoyed incredible growth since. From our beginning in Whittier California, our innovative spirit influences our operations and commitment to being flexible to accomodate our customers' needs.

We started making budget wood seating many years ago and have grown into a company making a wide selection of products for the contract market today. Our main philosophy has been that our commitment to customer satisfaction begins from the time an order is placed to well after the customer has received their products.

With over 48 years of experience in manufacturing office seating, we maintain the highest industry standards by standing behind our product with a full written guarantee. Our success is also attributed to the many representative, dealers and customers who have been affiliated with our company. Because of these efforts, OCI Seating has become a name that stands for quality and reliability.

At OCI Seating our products range from Executive, Conference, Guest, Reception and Soft seating. Through our relationship with Momentum Textiles, CF Stinson, Mayer and many other textile firms we offer a palette of over 500 fabrics from which to choose. As part of our service, we offer lead times that are some of the best and most reliable in the industry. Our chairs meet ANSI-BIFMA X5.1-2017 certified by an independent laboratory. They are engineered, designed and constructed to conform to the proper ergonomic dimensions as defined by the "National Standard for Human Factors".

In today's ever changing office environment, OCI Seating has positioned itself in providing a product that is a great value, produced in a timely manner with many options from which to choose. Please take a look at our many products.

OCI Sustainability Footprint

At OCI Seating our commitment to sustainability is an essential part of every decision we make. This is not only true about the products we bring to market, but in how we manufacture, distribute, and market them. Standard recycling procedures along with the implementation of lean practices and best practices which lead to good habits, we can meaningfully minimize any negative impact we may have on our environment.

Best Practices - OCI Seating may not fit into the category of a multinational but we certainly understand our responsibility to minimize our disruption to our surrounding environment. We encourage our employees, vendors, and customers to participate in our sustainability program by following these "Best Practices":

- Minimize waste in our supply chain by working together with our suppliers to minimize waste in their packaging by developing reusable containers for parts.
- We go out of our way to approve suppliers based on quality of parts produced to eliminate needless non-conformances that helps reduce the production of unusable parts.
- We continually work together with our suppliers to find efficient means of production and transport of their parts to our facility for production.
- Minimize shipment of finished product in carton by focusing on more blanket wrapped shipments. Blanket wrapped shipments reduce the need for packaging materials and cardboard boxes, better utilization of trucks by being able to ship more finished products in a trailer and saves our customers time and waste by not having to unpack and dispose of packing materials and cardboard at their end.
- Continuous product improvement by our engineers not only works on product improvement but wasteful and excess materials that are normally trimmed off like foam, wood and fabric which may find their way into our landfills.
- Use as much recycled material in the manufacture, fabrication and administration of our products.
- Design our products so that as much material as possible is recyclable.
- Create products that emit minimal toxic or harmful contaminants during their functional life.

Product Life - OCI Seating produces products that are built to last. It is the practice of not only purchasing materials that are made responsibly, but also made to last. Using responsible suppliers and their materials allows us to build long lasting responsible products that we are proud of.

Recycled Material - There is both post-consumer waste recycling [old tires can get ground up and used as input for new tires] and post-industrial [manufacturing rejects, setup waste, overruns]. Because the technology [and therefore the cost] of recycling post-consumer waste to any significant extent is still in the lab stage, most companies are in the postindustrial recycling category. Specifically, OCI Seating uses raw materials [and office materials] that all have some percentage of recycled input.

Please contact Customer Service for more information on the percentages of recycled material in our products as this varies by model.

Custom Wood Finishing
OCI Seating accepts custom wood finishing. There is a $225 Net upcharge per color, per order, for all products. All future orders with the same special stain will incur an 8% upcharge per order. Please send us the wood sample you would like us to match along with your completed purchase order. We will produce a strike-off and send it to you for approval. Once we have received final approval, we will place the order into production.

Wood Finish Maintenance
As with all fine finishes, care should be taken to protect the finish from sharp, unprotected objects. The top coat has a natural characteristic to repel the most common liquids used around wood components, yet spills or soil marks should be cleaned up immediately to avoid moisture seeping into open-pore areas. Please note that constant polishing and cleaning of the finish may raise the sheen level, whereas neglect in cleaning will dull and possibly abrade the finish.

Customer's Own Material (C.O.M)
Use of C.O.M. must be approved by OCI Seating prior to order acceptance. Fabric Yardage requirements are estimate and additional yardage may be required if pattern matching is required. Please refer to page 8 for more information and instructions when requiring C.O.M. for your order.

Flammability
OCI Seating manufacturers all its chairs to comply with California technical bulletin #117 (Cal TB117). If customer's own material is specified, OCI Seating is not liable for said COM fabrics non- compliance with Cal TB 117.

On January 22nd, 2019, California Technical bulletin number 133, the Flammability Test Procedure for Seating Furniture for use in Public Occupancies, was replaced by the California legislature. If compliance to TB 133 is required, add $70 list per yard of fabric utilized by the seating product specified for the application of fire barrier.

Application of Fabric
OCI Seating requires that all COM fabrics come "backed" with, at minimum, an acrylic or similar backing. We cannot be responsible for stretching of fabrics that are not "backed" during upholstery process. OCI Seating cannot be held responsible for the appearance, behavior, quality, or performance of any COM as well as COM that are rolled reverse by the fabric supplier.

The application of patterned fabrics on curved units will be stitched to match pattern requirements. All patterns will be stitched together to produce the best results. Modifications to the stitching pattern can occur to gain the best look or results when matching patterns.
